Due to the global economic downturn, many people lose their jobs, businesses, and homes. Some of the Pokrovitels, who live in New York, get letters about that it is even difficult for them to get shelter, someone cannot repay the loan for housing, others cannot pay rent for an apartment, and many people ask help and advice. In another situation, we find Pokrovitels, who want to help people that are losing their homes and who do not have a place to live.

I appeal to everybody who lives in New York and who has a large living space, and those who want to help with housing, and in return you'll receive a little help around the house, care for the elderly, the sick, childcare, etc. You can contact your local Pokrovitel; which is registered on our website under the name of kira26. She will choose for your companion (companion) to all your needs, further, you would be able to contact this person. if a person suits you-you can invite him or her to live with you.
